

Custom Milling Price List

Thank you for choosing Mariposa Woolen Mill to process your fibre and fleece. Prices for mandatory washing are based on incoming weight. After washing, which can lose approximately 50% of incoming weight, your order will be reweighed in order to better quote further processing costs. Deposit for order is fee for washing using grease weight which is to be paid upon drop off of fibre.

We highly recommend you properly skirt your fleeces to cut down on milling cost. You are welcome to wash your fibres before, but please know we will still be washing them to our specifications.

Mariposa Woolen Mill can guarantee you will receive your own fibres back, as your fleece will be processed independently of other orders. We currently accept orders of at least three pounds.

Prices do not include shipping and handling. All custom milling expenses must be paid before shipping.

What to expect...

It is appreciated to call ahead before dropping off an order. Upon arrival, we will assess and weigh the order. Again, please note it is more cost effective to properly skirt your fleeces beforehand.

Pricing: WASHING PRICES BASED ON INCOMING WEIGHT

**Typical process involves Washing (Soak, Rinse, Wash, Rinse), Picking, 1x pass Fibreseparator than continuing on to the carder then to be spun*
