

## Custom Milling Price List

Thank you for choosing Mariposa Woolen Mill to process your fibre and fleece. Prices are based on incoming weight in order to better quote processing costs.

We highly recommend you properly skirt your fleeces to cut down on milling cost. You are welcome to wash your fibres before, but please know we will still be washing them to our specifications.

Mariposa Woolen Mill can guarantee you will receive your own fibres back, as your fleece will be processed independently of other orders.

Prices do not include shipping and handling. We require a deposit of half the cost before processing. All custom milling expenses must be paid before shipping.

### What to expect...

It is appreciated to call ahead before dropping off an order. Upon arrival, we will assess and weigh the order. Again, please note it is more cost effective to properly skirt your fleeces beforehand. We will quote the final processing costs as well as the projected milling timeline via email from Mariposa Woolen Mill.

### Pricing: PRICES BASED ON INCOMING WEIGHT

*\*Typical process involves Washing (Soak, Rinse, Wash, Rinse), Picking, 1x pass Fibreseparator than continuing on to the carder.*
